

The total parcel count for tax year 2024 is 170,733.  
Taxable accounts in Larimer County 165,701.

A parcel can have more than one account associated with it.

Property tax revenue supports public schools, county governments, special districts, municipal governments, and junior colleges. All of the revenue generated by property taxes stays within the county. Property taxes do not fund any state services.

The county assessor is not responsible for high or low tax rates or setting mill levies.

The county assessor is responsible for discovering, listing, classifying, and valuing all property in the county in accordance with state laws. The assessor's goal is to establish accurate values of all property located within the county, which in turn ensures that the tax burden is distributed fairly and equitably among all property owners. Real property is revalued every odd-numbered year. Personal Property is revalued every year.

The State Legislature sets the percentage which is used to determine the assessed valuation upon which the levies and taxes are determined.

Tax year 2024 Assessments rates are as follows: Residential & Multi-Family 6.7%; Renewable energy 26.40%; Agricultural 26.40%; State Assessed 26.40%; Vacant Land, Commercial Property, and Business Personal Property 27.9%.

Each year county commissioners, city councils, school boards, governing boards of special districts, and other taxing authorities determine the revenue needed and allowed under the law to provide services for the following year.

Each taxing authority calculates a tax rate based on the revenue needed from property tax and the total assessed value of real and personal property located within their boundaries. The tax rate is often expressed as a mill levy.

These levies are certified by the Board of County Commissioners and delivered to the Assessor. After the levies are certified it is then the duty of the Assessor to extend the tax roll to the Treasurer, whose duty is to collect those property taxes.
