

Why are we creating a Water Plan?

Larimer County Intends To:

- Improve **long-term planning** for water supply in unincorporated areas
- Promote water-sharing strategies to preserve **agriculture**, and sustain water supplies
- Address **risks** and **sustainability**
- Prepare responsive **land use** policies and standards
- Advocate regionally on **water quality** projects
- Incentivize regional **water conservation**

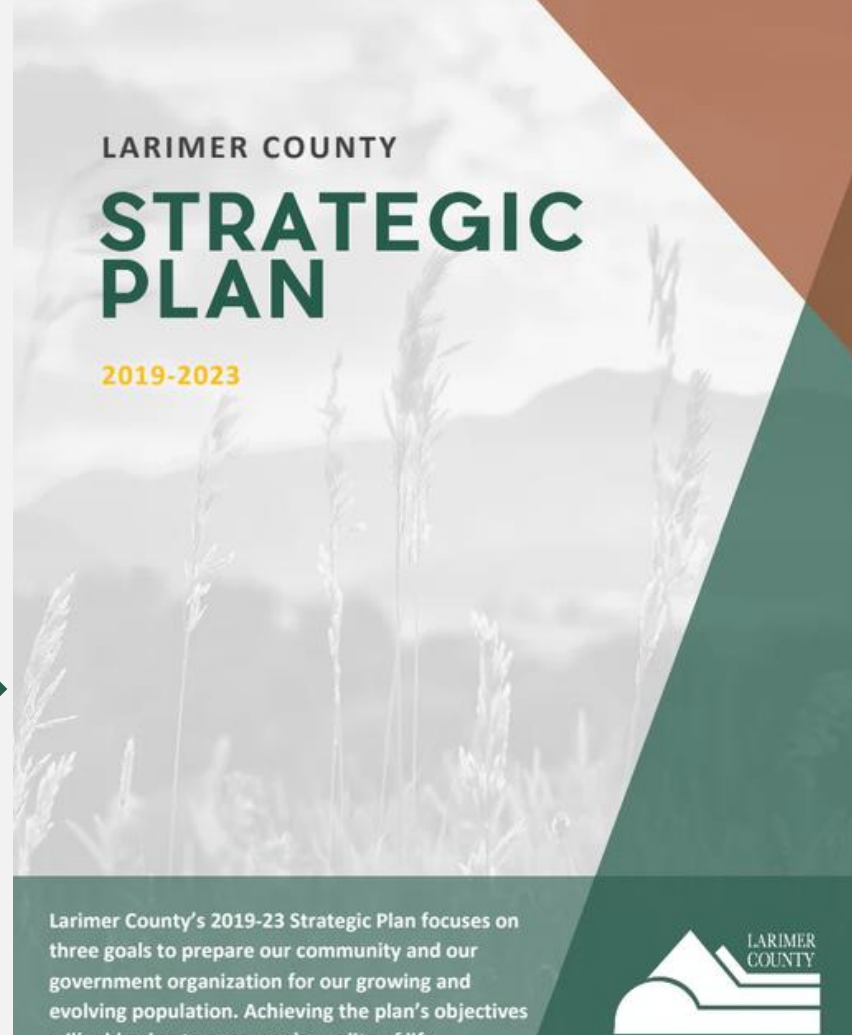

Relevant County Plans & Initiatives

Watersheds & Natural Resources

- WNR1. Natural Resource, Wildlife Habitat, and Ecosystems
- WNR2. Agricultural Lands Conservation and Stewardship
- WNR3. Watershed Protection and Enhancement
- WNR4. Water Conservation and Quality
- WNR5. Terrain and Natural Hazards

2019 Comprehensive Plan

LARIMER COUNTY
STRATEGIC PLAN
2019-2023

Larimer County's 2019-23 Strategic Plan focuses on three goals to prepare our community and our government organization for our growing and evolving population. Achieving the plan's objectives will add value to everyone's quality of life.

2019 – 2023 Strategic Plan

2024 – 2028 Strategic Plan

2024-2028
LARIMER COUNTY STRATEGIC PLAN

- GOAL AREA 1 - Resilient, Equitable and Engaged Community**
Design and offer programs that promote an equitable, engaged, and resilient community through a commitment to transparency, accountability, and outreach.
- GOAL AREA 2 - Quality of Life**
Encourage a vibrant community with opportunities that enhance the health, wellbeing, & economic opportunities for all current and future generations of community members.
- GOAL AREA 3 - Natural and Built Environment**
Support the conservation, stewardship, and resiliency of our natural and built environments while ensuring accessibility for people of all abilities.
- GOAL AREA 4 - County Operations**
Position Larimer County to achieve community priorities by developing future County leaders, focusing on efficiencies, innovation and security, and supporting an inclusive environment for County staff.
