

Banner MD Anderson ~~Cancer Center~~

at Banner McKee Medical Center

2000 BOISE AVENUE, SUITE A • LOVELAND, CO 80538 • (970) 810-3894

Larimer County has a partnership with Banner MD Anderson Cancer Center at Banner North Colorado Medical Center and Banner MD Anderson Cancer Center at Banner McKee Medical Center that allows members on the Choice and Standard PPO plans to have \$0 cost share for any services received at their Loveland or Greeley locations.

Banner Health's partnership with MD Anderson Cancer Center, one of the nation's leading cancer centers, means their cancer programs offer innovations in research, education, and prevention. In addition to cancer-specific clinics and support, they offer a variety of cancer care options, including:

- Genetic counseling
- Psycho-oncology
- Integrative oncology therapies
- Select access to clinical trials they offer

Another benefit specific to Larimer County members is that you will be assigned to a designated nurse navigator who will be familiar with our benefits and who will be your key point of contact throughout the treatment process. They will help to keep you on track to reaching critical milestones, scheduling appointments, and coordinating your care across your provider team.

It is our mission to provide high-quality, low-cost health care options for our medical plan members, and we are humbled have this valuable resource available in our community.

Proud to be
#1 in the nation
for cancer care.
